Dear Sir,

re: s.s. "AKAMAS" Starboard Boiler

We revert to our letter of the 25th ultimo.

Owners wrote to us in their letter of the 1st instant that according to a message which they received from the Master the starboard boiler was examined in Philippines and an annual boiler Certificate was issued. By this time perhaps you have also been informed in the matter by your Representative.

The Classification requirements involving drydocking and the drawing of the tail end shaft, we understand from the Owners, as we stated in our aforesaid letter, that they will be carried out at a convenient Continental Port. The vessel at present is loading at Philippines for discharge Antwerp/Hamburg range.

Yours faithfully,
