15th April, 1954.

Dear Sir,

Motorship "BENMORE"

A report of survey carried out by the Society's Sourabaya Surveyor last month has been received in this Office, from which it is noted the port and starboard main engine gear drives from crankshafts to camshafts were examined.

It is reported that some wheels of the port camshaft drive were renewed on this occasion, and that this drive is now in order.

It is recommended, however, that the starboard camshaft drive should be again specially examined before the end of August next, and the Committee have accordingly continued the vessel's class subject to this matter receiving attention by that time.

Yours faithfully,

c.c.Osl.

Assistant Clerk to the
Classification Committee.

Bendt Rasmussen, Esq.,
Kongensgate 30,
Kristiansand,
Norway.
