HULL

33513 "ST ROMINIQUE" referred for completion of machinery survey.

The contents of your letter of the 7th instant are noted, and in all the circumstances the Committee are prepared to record the date of build of this vessel as January, 1922, provided an opportunity is afforded you to make a general examination of the vessel in dry dock before she leaves your port. I shall therefore be glad to learn that you have been able to arrange for this to be done.
