Royal Bank Buildings,  
28, Constitution Street,

Leith, 7th June, 1926.

LLOYD'S REGISTER

Recd. 8 JUN. 1926

ASST.

LONDON

Enclos.

Dear Sir,

Herewith we enclose First Entry Report on the  
S.S. "EWELL, Messrs. The Burntisland S.B. Co.'s  
Yard No. 138 together with Forging Reports and Plans.

We may state that this vessel has left for  
Newcastle with view to having Engine and Boilers installed  
at that Port.

The under deck tonnage being assigned only a few  
days before the vessel left it was not found possible to  
verify the freeboard at this Port.

Due to the machinery not having been installed  
the steering engine and the windlass have not been tried  
out.

The gross tonnage having not been assigned we have  
not been able to obtain the amount of fee for Special Survey  
therefore no account as been rendered to the Builders, this  
will be done immediately the gross tonnage comes to hand.

We are, Dear Sir,

The Secretary,  
LONDON.

Yours faithfully,

THE SURVEYORS.  
Per.

*W. J. Anderson*
