

"OTTERHOUND"

This Tanker is over 25 years old.

It is considered The Owners' proposal for continuation of the present class for a further twelve months would not be acceptable to the Committee, but the Owners, through the MONTREAL Surveyors, might be informed that provided the vessel is opened up as for a SPECIAL SURVEY (D) and only necessary repairs effected for a period of 2 years, a notation of "Modified Special Survey ? (2 yrs)" might be recommended for assignment.

It is observed that a Freeboard Certificate was issued at Montreal on 21.4.52, valid until 31.12.52, only whilst engaged on service on River and Gulf of St. Lawrence and to Nova Scotia and New Brunswick ports. No indication of this restriction is recorded in the class of the vessel. The references in Montreal cablegrams to amended class are therefore in error.

20.2.53.
