T.S. 5.18.

Survey due Boiler Survey due 5.19.

The Owners state this vessel is now trading on account of the Italian Government between Italian ports and America, and is not likely to be in this country for something like eight months, and they will be glad to hear that the survey can be held over. If not, they would suggest the boilers should be submitted to the inspection of the Society's Surveyors the next time the vessel returns to an American port, which presumably will be in the course of six weeks or so.

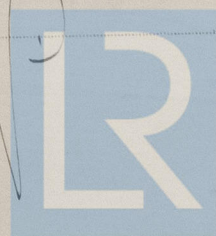

*Submitted the Owners  
be asked to make arrangements  
for having the boiler survey  
held on the vessel return  
to an American port as  
suggested.*
