

N.B. All alterations to the existing records should be underlined.  
If the Vessel has Water Ballast Tanks, state whether the manhole covers have been removed, and the insides of the tanks examined. Also state the amount of deterioration (if any) found in the thicknesses of the floors, framing, girders, and of the inner bottom plating, especially in the boiler space.

The survey of the screw shaft of this vessel became due at the end of last month, but the Owner now states he has decided to transfer the steamer to the classification of the Germanischer Lloyd, and he requests that her class be withdrawn from this Society's Register Book.

In the circumstances the Classing Committee, who had the case before them on Tuesday, 23rd instant, decided to give instructions for the vessel's character to be withdrawn from the Register Book and three dots (...) inserted in lieu thereof, indicating withdrawal of class at Owner's request.
