S.

The Secretary

London.

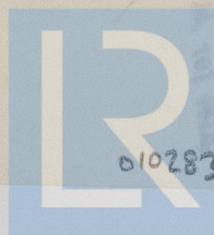

Dear Sir,

With reference to Your classing letter of the 13th instant respecting the first entry report No. 7280 on the S. S. "HERMINA" and with regard to the riveting of the butts of the shellplating I beg to inform You that the rivets are spaced not more than $3\frac{1}{2}$ diameters apart and regret that this statement has been erroneously omitted in the first entry report.

The case is in perfect order and the Certificates consequently handed over to the Builders.

I am, Dear Sir

Your obedient Servant
