Chief Engineer Surveyor.....

Received from Chief Engineer Surveyor.....

ME. OAKBY

REPORT

No.

To enable the vessel to proceed to an Italian port the following parts should be examined:-

Main boiler survey to be held (due 8/58)
Screwshaft survey to be held (due 9/58)

If the main engine has not been cared for during the lay-up period then the H.P. cylinder and two main bearings should be opened out and examined and further examination be left to the discretion of the Surveyor. The main and auxiliary machinery, pumping arrangements & electrical equipment to be tried under working conditions

Phoned to Mr. Gates
