912 - As recommended.

9, 85 - As recommended.

" - I shall be glad to receive a reply as soon as possible enquiring contained in my classing letter of the 23rd September.

" (RMC) - A Running Survey of the Refrigerated Cargo Installation has been partly held at London this month and a fresh record of 3 will be assigned when the insulation throughout No. 3 hold is examined. The Owners' representative has stated that the work would be completed either at your Port or at Hong Kong on completion of the present cargo, and I shall be glad if you will accordingly. I would add that the Hong Kong Surveyors have been advised in this respect.
