M.

Dear Sir,

Replying to your letter of 8th October with  
reference to the steamer "KISO MARU" Kobe Report No.2899,  
I have to state that the Sheerstrake was doubled at the  
Bridge ends 20'-0" x .68".

The stream wire and Hawsers are in order and  
the scantlings of the stem, sternpost and Rudder were  
fitted as approved.

I am, Dear Sir,

Yours faithfully,

*A. P. Hance*

The Secretary,

LONDON.
