-----

The Second Special Survey No.1 of this vessel, which became due in July 1925, was partly held at Kobe in December last, and the Committee agreed to it being completed some time within the year of grace allowed by the Rules.

The Society's Surveyors at Kobe cabled on the 25th instant that the Owners did not desire to continue the vessel's classification with this Society, and the Surveyors recommended that the class should be expunged with a red line.

In the circumstances, the Classing Committee, who had the case before them on Tuesday, 28th instant, decided to give instructions for the class to be expunged from the Register Book with a red line (9.26), indicating non-compliance with the Society's Rules.
