71, Fenchurch Street, E.C.

3 Enclosures.

20th April, 1915.

Dear Sirs,

H.

I have to return herewith Mr. Blackwood's first entry report on the steamer "WELBECK" together with the approved plans of midship section, profile and decks, and to request that he will complete the report in regard to the depth and thickness of the floor plates and the thickness of the bulkheads. He should also state the A x D of the rudder, and fill in the depths "d" at the middle of the lengths, as this information has been omitted from the report.

I shall further be glad to learn whether the statement that two bilge keelsons and a side stringer are fitted is correct, or whether keelsons and stringers are fitted as shown on the approved plan.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

HULL.
