4th Storey

(Apartado 286),

Bilbao, 30th May 1934

Enclosure

Dear Sir,

Messrs. Corcho Hijos Hull No.34
Pumping Arrangements

At our recent visit to the above vessel we found that on the Owners' instructions modifications had been made to enable the side ballast tanks to be pumped out or filled by the ballast pump in the engine room in addition to the cargo pumps.

We enclose herewith a rough sketch showing the arrangements.

This vessel is intended for bunkering purposes only; however, blank flange spectacle pieces and notice plates have been fitted as shown should the vessel be converted at any time to carrying petrol.

We shall be glad to hear if this arrangement is approved.

We are, Dear Sir,
Yours faithfully,

J. H. Henderson

me with the view of being able to make a full report on the progress of the work.

As the work is now being carried out by the Chief Engineer Surveyor, it is suggested that the work should be continued by the Chief Engineer Surveyor.

This matter is being referred to the Chief Engineer Surveyor for his consideration.

Yours faithfully,

The Secretary

The Secretary is now being carried out by the Chief Engineer Surveyor, it is suggested that the work should be continued by the Chief Engineer Surveyor.
