

Mr. Ward, Wokingham

Single Screw Tanker "ENNERDALE", Messrs. Swan, Hunter &
Wigham Richardson's No. 1656.

Dimensions:- 462.5' x 59' x 34'

This vessel is one of the Emergency Shipbuilding Programme tankers and the plans were approved for the class 100A1 "Carrying Petroleum in Bulk" with the notation "Longitudinal Framing at Bottom and Deck". A reduced length of cable was approved as a war emergency measure. The plans were approved before it was agreed that the third bower anchor could be omitted, but this would also apply to the present case.

6th August, 1941.
