Dear Sirs,

C.

Steamer "HABANA".

RNC.

With reference to my letter of the 30th January last, the case of this vessel has received further consideration by the Committee today, as the section of the new Register Book containing this ship's name is now required by the Printers.

In the circumstances, the Committee have decided to include the ship's name in the edition of the book which is to be published in July, and to include in the classification column the following items:-

100A1 with freeboard.
Surveys overdue.
Class suspended 6.61.

This is considered to be factual even if the vessel is broken up before July, in which event, of course, an appropriate notation would appear in the Supplement, so I am still interested in any information you may be able to obtain on this subject.

Yours faithfully,

c.c. Pubs. Dept.

Clerk to the
Classification Committee.

The Surveyors,
EL FERROL.
