Surveyed Afloat or in Drydock DRY DOCK Name of Dock CADIZ. Date of last examn. in Drydock 25th Feb. 1959.

N.B.—Any alterations in existing particulars in the Register Book should be reported and underlined.

Last Report: No. 2693 Port Gdoy
To be filled in at Head Office.

Particulars of Classification (which must be inserted precisely as in Register Book and Supplement)

Surveys must be reported in the terms of the Rules. The nature and extent of Examinations and Repairs (if any) must be stated in detail, the parts examined and their condition being clearly indicated. For Annual, Special or other Condition Surveys the Summary of Examination and Condition on the back of the Report is to be carefully completed and amplified if necessary in the body of the Report. Outstanding items to complete the Survey should be summarised at the end of the Report. The reasons for Repairs must be stated. Repairs on account of Damage (the alleged cause of which must be stated) should be separated from Repairs due to other causes, and, besides being detailed in the body of the Report, should be summarised in the form below. When, at a Special Survey, the Shell and Deck Plating is drilled the results must be reported on Report 8(Dr). Whenever Anchors or Chain cables are replaced or retested the necessary particulars are to be given on Report 8(Eq) which is to be attached to this Report.

EXAMINATION AND REPAIRS AS PER RULE FOR DOCKING.

This vessel has been laid up in the ZONA FRANCA, CADIZ, since leaving MARAGORRA in October 1958 where she had been under special survey. In view of the fact that four months of the six months' limit had expired and the vessel had only just acquired a cargo, the Owners requested six months to make two voyages before completing the special survey. See cable, CADIZ-LONDON dated

Now Done For Docking:- Hull painting only.

For special survey: Nothing done.

To complete special survey:- The following shell plates to be renewed:-
Port B4, B10, C5, C7, C9, D5, G2, G4
Starboard B4, B5, B6, B10, C3, C5, D7, E4, F3, G4, G5, G12, G15
(All numbers from forward)

Fair'd or Repaired in place								

Has a Survey also been held on machinery of the Ship? Yes.
If so, is the Report sent now, or when will it be sent? Now
Is Classification Certificate required? If so, to be sent to NO. CDZ(U)
Has Interim Certificate been issued? Yes, copy attached and a copy placed on board.

GENERAL OBSERVATIONS, OPINION AND RECOMMENDATION AS TO CLASS

State clearly what alteration, if any, is suggested to be made in the existing Classification or Survey or other records of the Ship in the Register Book consequent upon this survey; for example:—"to remain as Classed in the Register Book without fresh record of Docking"; "to remain as Classed and to have record of drydocking 1.55"; or "to remain as Classed and to have record of drydocking 1.55, and the notation of S.S. 1.55".

This vessel, so far as now seen, is, in my opinion, eligible to be continued as classed with fresh record of dry docking 2.59, subject to bottom shell repairs recommended at special survey being carried out by 31st August 1959.
