The above recommendations including the necessary staging, drydocking, removal of keel blocks painting new and disturbed work, cleaning and testing of the F.P. No.1 & 2 D.B. Tanks & No. 1 Deep Tank P & S, pipe removals etc., have been made in order to place the vessel in the same good and efficient condition as before the alleged casualty.

In the opinion of the undersigned the damage is consistent with the alleged cause, viz grounding.

Permanent repairs have now been effected.
