Dear Sirs,

CLASSING LETTER

35268,289 "ALBACARA". As recommended, postponement of the Special Survey until January, 1964, having been approved. Please inform the Owners accordingly.

It is concluded that the remaining requirements of the General Examination (machinery) have been dealt with at this time, as this is not apparent from the Report, but this should be confirmed.

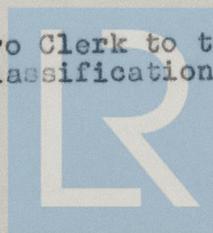

I think it well to add that to complete the Auxiliary Boiler Survey the port auxiliary boiler safety valves still require to be adjusted under steam, and you should confirm that the Owners will make early arrangements in respect of this matter.

I acknowledge receipt of your letter of the 16th July last, the contents of which have been noted.

Yours faithfully,

pro Clerk to the
Classification Committee

The Surveyors,
BUENOS AIRES
