Enclosure

8th April, 1953.

Dear Sirs,

Before submitting your report No.7220 respecting the Motorship "MIL 50" to the Committee, I enclose for your information a copy of the approved plan of the sternframe and rudder, showing the rudder as originally fitted, and have to inform you that it would appear from the sketch of the rudder given in your report that there are differences which cannot be reconciled with the information available in this Office.

I shall therefore be glad if you will ascertain and let me know whether the rudder has at any time been renewed or major repairs effected and arrange to furnish a plan of the rudder as now fitted, together with details of the coupling, including the bolting of the rudder to the rudder head.

Yours faithfully,

Assistant Clerk to the  
Classification Committee

The Surveyors,  
OSLO.
