

el Screw Steamer "CHLORIS" ex "EIDER". No.58836 in Register Book

-----  
le Dimensions: 250.7 x 37.4 x 15.1  
-----

This vessel which was built in 1921 by the Werft  
biskrug, Rendsburg, and is classed with the Germanischer  
loyd, has been purchased by Messrs. J.&.P.Hutchinson, of  
asgow, who desire to class her with this Society.

The question of the scantlings is fully dealt  
with in the endorsement 15.6.23, in which certain additional  
requirements were indicated.

The vessel has now been under survey at Liverpool  
and the Surveyors have suggested alternative strengthening  
to that previously suggested, particularly in the case of  
the hatch side coamings, and it will probably be necessary  
to communicate again with the Surveyors before the case  
can be placed before the Committee for consideration.
