Dear Sir,

Steam Tanker "MODAL"

With reference to Mr. Samuelson's telephone call yesterday, I confirm that, according to our records, shell plate E.10, port side, had not been specially noted by the Society's Surveyors before the survey held at Lubeck in May, 1961. It appears that the extent of the indented plating was the same at Lubeck as at Southampton in November, 1959, with the exception of shell plate E.10.

Yours faithfully,

Clerk to the
Classification Committee.

Torvald Klaveness, Esq.,
P.O. Box 2447s,
OSLO,
Norway.
