

"ZEITOUN".

The Owners have telephoned stating that the vessel is drydocking at Baltimore very early in July. They referred to our letter of 7.12.53 and requested that the Baltimore Surveyors be asked to go ahead with fitting of deck girders etc., now, the matter concerning doublers being deferred as approved.

On reference to the deferred reports and endorsement dated 27.11.53 it is concluded the above means that Item 1 is now to be dealt with at Baltimore, Item 2 being deferred as approved.

18.6.54.
