M/V "KASHII MARU"
Electrical Installation

Dear Sir,

With reference to the First Entry Report on the above vessel, I have to state that the dynamos were not over-compounded 5% as required by the Rules, as the Owners specified that they should not be more than $3\frac{1}{2}\%$ over-compounded, as in the case of the M/V "Kinugasa Maru".

We have received a request from the Owners that these machines might be accepted for Classification, and this request is forwarded for the favourable consideration of the Committee.

At the same time it has been pointed out to the Owners that it is desirable that machines should be over-compounded 5% as required by the Rules, and the Owners' Representative has given an assurance that in future vessels this will receive their earnest consideration.

I am, Dear Sir,
Yours faithfully,

E. Macpherson
