

"MOBIL ASTRAL".

The machinery of this ship was built and installed to L.R./A.B. class in November, 1949 and the L.R. class withdrawn at Owners' request in August, 1958.

For re-classification, it is submitted that the Owners be informed that the following requirements should be complied with:-

A complete Engine Survey, Boiler Survey, Screwshaft Survey and Steam Pipe Survey to be carried out.

The spare gear and fire extinguishing arrangements to be in accordance with the present Rules.

Particulars of any major renewals or amendments effected since the class was withdrawn should be submitted.

With reference to the proposed alterations to increase the dead-weight of the ship, alterations to the piping and electrical installation should be carried out in accordance with approved Plans.
