

7th April, 1949.

Dear Sirs,

I have to acknowledge the receipt of your letter of the 9th ultimo respecting the Motorship "MELTEM", the contents of which have been duly noted.

S.

I have to inform you that the fees suggested by you are considered to be satisfactory, and I may say that as soon as the reports are submitted to the Committee and a class assigned which is at the moment dependent upon the result of an enquiry in connection with the torsional vibration characteristics of the vessel, an account for the amount in question will be rendered to the Owners.

As requested in your letter under reference, I will advise you when the account has been paid.

Yours faithfully,

Clerk to the
Classification Committee.

The Surveyors,
TRIESTE.
