Postponements
already agreed

On 22.2.60 the Rio de Janeiro Surveyors stated that the Owners expected to drydock the ship in 6.60 for Special Survey (8 months after the due date). This proposal was approved subject to a satisfactory General Examination being held afloat in 3.60.

New proposal

The General Examination and Steam Pipe Surveys have not yet been held. The Owners appreciate that the ship is in need of extensive repairs, but wish to keep her in service until September/October, 1960 (11/12 months after due date of Special Survey). The Owners have approached Bureau Veritas to enquire whether they would accept the ship in her present condition. The ship is 30 years old.

Technical
recommendation

A satisfactory G.E. (Cir. 1959) should be held forthwith.

Boiler Survey should be completed & steam pipe survey held at G.E.
