December 29th, 1955.

The Secretary  
LONDON.

Dear Sir,

With reference to your Classing Letter of the 20th instant respecting the motorship "AMHERST ISLANDER", I have to advise you that the main engine reduction gearing was supplied with the main engine by Crossley Brothers Limited, and a copy of the Classification Certificate for this engine was sighted at Kingston.

It is concluded that the Manchester Surveyors will be able to confirm that the gearing was constructed under survey with the main engines.

Yours very truly,

*W. Healey*
