London, E.C. 3.

Dear Sir,

Motor tug CULEX

We thank you for your letter of the 10th March and note the torsional vibration characteristics of the main machinery have been approved provided the engine is not run continuously below 100 R.P.M.

We agree that a notice board indicating the barred speed range is desirable also that the bridge tachometer should be appropriately marked.

These items will be put in hand as soon as possible and on completion we shall advise you so that the Society's Surveyors may be instructed.

Yours faithfully,

For GASELEE & SON LTD.

*J.E.S. Pennington*  
for Director.
