Dear Sirs,

F. Schichau - Yard No. 1674

With reference to a telephone conversation between the writer and Mr. Auer today we have to confirm that although this ship was originally approved for the class 100 A1 "For Towing Services on the River Thames" and the equipment was made in accordance with Table 54 of the Rules, the Owners later requested approval for the equipment as originally approved on the plan of Midship Section, i.e. with one bow anchor. This equipment was, therefore, accepted, but the class was amended to A1 "For Service on the River Thames", the Builders being informed in our letter of December 7th, 1955. Unfortunately a copy of this letter was not forwarded to your office. We enclose an additional copy of this letter for transmission to London.

Yours faithfully,  
The Surveyors,  
Per:-
