Name of Dock

Date of last examn. in Drydock 28-11-1960

N.B.—Any alterations in existing particulars in the Register Book should be reported and underlined.

Last Report: No. 49461 To be filled in at Head Office.

Port Rot

Particulars of Classification (which must be inserted precisely as in Register Book and Supplement)

Surveys must be reported in the terms of the Rules. The nature and extent of Examinations and Repairs (if any) must be stated in detail, the parts examined and their condition being clearly indicated. For Annual, Special or other Condition Surveys the Summary of Examination and Condition on the back of the Report is to be carefully completed and amplified if necessary in the body of the Report. Outstanding items to complete the Survey should be summarised at the end of the Report. The reasons for Repairs must be stated. Repairs on account of Damage (the alleged cause of which must be stated) should be separated from Repairs due to other causes, and, besides being detailed in the body of the Report, should be summarised in the form below. When, at a Special Survey, the Shell and Deck Plating is drilled the results must be reported on Report 8(Dr). Whenever Anchors or Chain Cables are replaced or retested the necessary particulars are to be given on Report 8(Eq) which is to be attached to this Report.

SHIP'S CLASS Date of Special and of Drydocking Surveys, etc.	Machinery
+ 100A1	+ LMC
	C.L.
	A.B.S. 100 lbs.

Give dates and references to any letters relating to this Report

In damage cases where the Surveyor has not made a special damage report he should state whether he offered

his services for this purpose and to whom and why they were declined. Freeboard as marked on ship and now verified --- ft --- ins

Was a damage report made by anyone else? If so, by whom?

EXAMINATION AND REPAIRS AS PER RULE FOR DAMAGE SURVEY AND PERMANENT REPAIRS DOCKING SURVEY

General examination for notation "Commissioned 12-1960"

The vessel sustained damage due to contact with quaywall on the 28th November 1960 at Flushing (Outerharbour)

Upon examination it was found that on portside forward in way of No. 2 hold and aft in No. 4 hold. 2 Plates were locally set in.

The following repairs have been carried out:

Portside: M-strake locally faired in place in way of frame 153-154. L-strake partly renewed over 3 frame spaces in way of frames 43-45 and locally faired in place in way of frames 42-43. On completion of repairs shellplating hosed tested and found tight.

CONTINUATION OVER/OR SHEET 2

SUMMARY OF DAMAGE REPAIRS	Shell Plates	Frames	R. Frames	Floors and Bracket Floors	Inner Bottom Plates	Deck Plates	Beams	Other Items
Renewed	1 partly							
Removed and Faired or Repaired								
Faired or Repaired in place	2							

Has a Survey also been held on machinery of the Ship? yes

sent now

Is Classification Certificate required? If so, to be sent to

R'dam Surveyors

If so, is the Report sent now, or when will it be sent?

Has Interim Certificate been issued?

Copy attached.

GENERAL OBSERVATIONS, OPINION AND RECOMMENDATION AS TO CLASS

State clearly what alteration, if any, is suggested to be made in the existing Classification or Survey or other records of the Ship in the Register Book consequent upon this survey; for example:—"to remain as Classed in the Register Book without fresh record of Docking"; "to remain as Classed and to have record of drydocking 1,55"; or "to remain as Classed and to have record of drydocking 1,55, and the notation of S.S. . . . 1,55".

It is submitted this ship is eligible to remain as classed with fresh record of Docking 11-60 and to have notation "Commissioned 12-60."

W.B. Scheelings  
Surveyor to Lloyd's Register of Shipping
