21st October, 1930.

Dear Sirs,

M. With reference to Mr. Edwards' Report No. 17897 on the Steel Screw Steamer "TOLWORTH", Messrs. The Burntisland Shipbuilding Co's Yard No. 165, it is concluded that the spacing of the rivets through frames and shell plating amidships, and the size of the forecastle deck beams are as approved, but I shall be glad if you will state if this is so.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

LEITH.
