LLOYD'S REGISTER OF SHIPPING,
NEWCASTLE.

1st October, 1948.

Surveyors,

Sirs,

"SHEAF MEAD".

The above vessel has been in hand in this port for
Classification Survey and has today sailed for Hull. To
complete the survey the following item requires to be done:-

Watertight door with the necessary control gear to be
fitted to the Engine Room Bulkhead in accordance with
Rule Requirements.

The door and control gear have been placed aboard the
vessel and the Owners' Superintendent has stated that he has
arrangements for this work to be carried out by Messrs.
Hill & Cowan of Hull. We should be glad, therefore, if
you could give this matter your usual kind attention.

Yours faithfully,
The Surveyors,

Per:-

(Signed) ALFRED T.S. SHEFFER.
