71, Fenchurch Street, E.C.3.

27th July, 1948.

Your Ref: WTS/MH

Dear Sirs,,

S.S. "SHEAF MEAD"

I beg to acknowledge receipt of your letter of the 23rd instant, and in reply to acquaint you that the examination of the electrical installation, blank flanging arrangements to deep tanks, bilge suction to deep tanks mentioned by you have already been dealt with, the whole of the Special Survey of the machinery having been held. In addition to the items enumerated in your letter for completion of Special Survey of the hull, the following require to be dealt with, viz:-  
Tween deck F.W. tank to be tested, engine room double bottom tank to be examined, tunnel watertight door to be altered to comply with the Rules, A First Entry Report to be completed by the Society's Surveyors.

The date to be assigned for the Special Survey would be 6.47, the principal part of the requirements having been complied with then, but should an up-to-date notation be required, a General Examination of the parts already examined would require to be made to ascertain that no material deterioration has transpired.

Yours faithfully, *Copy sent here*
