s.s. "DELAWAREAN" and "LOUISIANAN".

-----

During the last War a number of Enemy vessels were taken in Prize or requisitioned by the Allied Governments and to avoid loss of time involved by submitting the vessels to the full survey requisite for classification in the Society's Register Book, the Committee agreed to a date of survey being recorded in the Register Book and a footnote "This vessel, which was classed in another Register, has now been surveyed by the Surveyors to Lloyd's Register".

It is submitted for consideration whether, pending the completion of the survey for classification, a similar procedure might be adopted in the cases of these vessels.
