M.t. "BARBARA" - Application for Postponement of Special Survey

The above Tanker will become due in December next for Special Survey the last Special Survey having been held in December 1951.

The present difficult period in the petrol freight market does not permit ^{us} to arrange a programme very easily. Because of the few offers of cargoes which occur on the market we find ourselves constrained to accept cargoes as they occur and therefore we are reluctant to stop the ship for any long period.

In the case of this particular Vessel we have the opportunity to accept a contract for consecutive voyages until December 1956 and we should therefore very grateful to receive an extension of a year of grace on the date of the Special Survey. This is something which we have never before requested for this ship.

Hoping that you will give the case your favourable consideration,

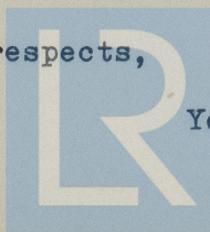

With our best respects,

Yours faithfully,

ENRICO INSOM
