

29 OCT 1935

s.s. "CILURNUM"

This case is fully stated in endorsement dated 7.12.34 when Messrs. Harris & Dixon were fully informed of the conditions under which this vessel's class was expunged with a Red Line from the Society's Register Book.

A further letter has now been received from Messrs. Harris & Dixon stating that the Owner of the vessel has pointed out to them that the marking is still shewn in the Register Book which would make it appear that the vessel has been forced to abandon her class, and they request that this marking might be expunged in order that the vessel may not continue to be prejudiced for insurance or other purposes.

With regard to this request it may be stated that it is now the practice to retain records of Red Line, Black Line and Three Dots permanently in the Society's Register Book.

The request is submitted for the consideration of the Committee.
