-----

The Second Special Survey No.1 became due  
March 1933, and no part has been held, the vessel having  
been laid up and the usual undertaking furnished.

The Bilbao Surveyors have now forwarded a  
letter from the Owner stating that the vessel is going to  
be classed with the British Corporation, as she was built  
to that Society's classification.

In the circumstances, the Classing Committee,  
who had the case before them on Friday, 17th instant, decided  
to give instructions for the vessel's class to be expunged  
from the Register Book with a red line (8.34), indicating  
non-compliance with the Society's Rules, and the Owner  
has been informed accordingly.
