SINGAPORE

11348,66,69 - As recommended.

11328 "TJISONDARI" - As recommended. I think it well to point out that although the National Authority is concerned the working pressure of the donkey boiler, so far as this Society is concerned the working pressure remains as originally assigned, namely 120 lbs. per square inch, and will remain at this figure unless deterioration in the condition of the boiler compels the Surveyors to recommend a reduced pressure.
