Particulars of Classification (which must be inserted precisely as in Register Book and Supplement)

Surveys must be reported in the terms of the Rules. The nature and extent of Examinations and Repairs (if any) must be stated in detail, the parts examined and their condition being clearly indicated. For Annual, Special or other Condition Surveys the Summary of Examination and Condition on the back of the Report is to be carefully completed and amplified if necessary in the body of the Report. Outstanding items to complete the Survey should be summarised at the end of the Report. The reasons for Repairs must be stated. Repairs on account of Damage (the alleged cause of which must be stated) should be separated from Repairs due to other causes, and, besides being detailed in the body of the Report, should be summarised in the form below. When, at a Special Survey, the Shell and Deck Plating is drilled the results must be reported on Report 8(Dr). Whenever Anchors or Chain Cables are replaced or retested the necessary particulars are to be given on Report 8(Eq) which is to be attached to this Report.

EXAMINATION AND REPAIRS AS PER RULE FOR DOCKING AND DAMAGE REPAIRS

Damage Repairs:- Damage stated to have been caused by heavy weather experienced whilst on voyage Tsamkongu to Hsinkangu between 16.10.60 and 21.10.60

Found :- The longitudinal plate (FM42-43) forming the inboard side of the port D.B. kingston box was found fractured at the toe of the welding connecting it to the forward and aft floor plates causing a leakage into No.6 D.B. Centre tank.

Now Done :- Plate cropped in way of fractures and a flat bar inserted and welded to floor plate and longitudinal plate. No.6 D.B. centre tank was pressure tested and found satisfactory.

Minor wear and tear repairs carried out.

GENERAL OBSERVATIONS, OPINION AND RECOMMENDATION AS TO CLASS

State clearly what alteration, if any, is suggested to be made in the existing Classification or Survey or other records of the Ship in the Register Book consequent upon this survey; for example:— "to remain as Classed in the Register Book without fresh record of Docking"; "to remain as Classed and to have record of drydocking 1,55"; or "to remain as Classed and to have record of drydocking 1,55, and the notation of S.S. . . . 1,55".

This ship, so far as now surveyed, is eligible in my opinion to remain as at present classed with fresh record of Dry Docking 1-61. subject to any conditions attached to the vessels class being dealt with as previously recommended.
