

"INGRID THORDEN".

-----

It is submitted the freeboard certificate and copies be forwarded to the Gothenburg Surveyors, together with the report and computation for the consideration and approval by the Swedish Authorities. Their attention should be called to the scantlings of the beams of No.1 hatchway on the freeboard deck, to the height to the <sup>tonnage</sup> ~~lounge~~-opening coaming, and to the bearing surface of the tonnage opening hatches, as it is considered that these do not comply with the requirements of the Convention

They should be requested to forward the Certificate and copies to the Helsingfors Surveyor, together with the assignment letter, for issue when the freeboards have been marked and verified and any conditions of assignment required by the Swedish Authorities have been complied with.

The Helsingfors Surveyor should be advised of the action taken and a memorandum of the freeboards should be forwarded to him. If the survey is completed before the Certificates are received from the Gothenburg Surveyors/<sup>he</sup> should be requested to issue a provisional Certificate on Rpt.10, forwarding particulars to the Gothenburg Surveyors and this Office.

CONVENTION(SWEDISH)

Retain plans.
