Dear Sirs,

## CLASSING LETTER

C.  
MWA/DET

10212 "MOBIL RADIANT". As recommended. It is concluded that the sternbush is now a close fit, but your confirmation is desired.

10263 "TRANELAND". As recommended except that a record of ABS 5,63 has been assigned. In this respect I shall be glad if you will confirm that the oil burning system and remote controls were examined working in accordance with the Rules.

10232 "KASSOS". As recommended. I would point out that the Continuous Survey of the machinery is behindhand as about 50% of the machinery should have been examined by this time. In these circumstances you should request the Owners to make arrangements for the survey to be advanced at the earliest opportunity.

Yours faithfully,

pro Clerk to the  
Classification Committee

The Surveyors,  
PIRAEUS.
