

29th September, 1961

PLYMOUTH.

8848, "ALICE" ) - These ships have now been classed @A1 "Tug"  
8853, "AGATHA" ) "River and Estuary Service" together with  
8857, "AUDREY" ) the appropriate notations recommended by  
8860, "AGNES" ) you.

In connection with your Rpts. C.11, I shall be glad if you will confirm that the flush scuttles to void spaces are of an approved type and that they are made of cast iron of a malleable quality. You should also state the height of the air pipes.

Please furnish separate "As Built" plans of Midship Section and Profile and Decks for each ship as stated in "Instructions to Surveyors" Part 2a, 1950, Para. 26. It is concluded that the weight of the anchor head including pins etc., is not less than 60% of the total weight of the anchor, but please confirm this as this has been omitted from your reports.
