Dear Sirs,

Steamer "ISABEL"

Before your Report No. 62027 receives the consideration of the Committee, I shall be glad if you will let me know what items require to be dealt with for the assignment of a full Special Survey notation both in respect of repairs and Special Survey items.

I have to inform you that while a Modified Special Survey notation cannot be granted without the testing of the fore and aft peak tanks the portion of survey now carried out would cover the requirements of a General Examination for postponement of the Special Survey until July, 1964.

Your comments on the foregoing are awaited.

Yours faithfully,
