

Whaler "KOS 29"

This ship last underwent Special Survey in October, 1954, and has been laid up since 1957.

A notation of "Surveys overdue 10,58" was assigned by the Committee in January, 1960.

In reply to enquiry, the Oslo Surveyors state under date of 10th October, that the ship is still laid up.

As more than eight years have elapsed since the vessel was last submitted to Special Survey, it is submitted that in accordance with the usual practice, the class be deleted from the forthcoming reprint of the Register Book and that the notation "Classed LR until October, 1958" be inserted in lieu thereof. *\*ABC*
