2nd November, 1956.

Dear Sir,

Motorship "POZA RICA"

With reference to Los Angeles Report No. 5497, I shall be glad if you will ascertain from the Surveyors, and let me know, why the echo sounding device in the aft pump room is unsafe, it being concluded that the device is not in accordance with the Society's electrical requirements for tankers. If such is the case then the condition of class in this respect should have been contained in the Rpt. 9.

I shall also be glad to learn whether the shell plating has been pierced to accomodate the device in question.

Please also refer the Surveyor to the contents of Circular No. 1808 and forward his comments to this office.

Yours faithfully,

per Clerk to the  
Classification Committee.

The Secretary,  
NEW YORK.
