Reference

S.

Dear Sir,

"BAHR NAGASH"

I thank you for your letter of the 5th inst,  
and with regard to the small hole in the bottom plating  
~~and~~, as far as seen the plating in the vicinity of the  
hole was sound, the defect is extremely close to the  
ship's side and in my opinion is not the result of  
damage. Wastage is the probable cause but this opinion  
can only be confirmed when the vessel is drydocked.

I am, Dear Sir,  
Yours faithfully,

The Secretary,  
London.
