Dartmouth, 13.7.1942.

S.S. "MARI II"

Dartmouth Report No. 7503.

Reference

S.

Dear Sir,

In reply to the enquiries contained in your Cladding Letters of 23rd ult. and 10th inst. I have to state that the bracket floor reverse frames and vertical struts are as indicated on the midship section.

The Thickness of Bridge and Forecastle Deck Plating is 5/16" and 1/4" respectively and Wood Sheathing 2.3/4" Thick Fitted on the Forecastle Deck only. Further I have to confirm that the Diameter of the I.P. Cylinder is 28.1/8", but that the Registered Depth should be 17.4. as appearing in the Register Book.

I am, Dear Sir,

Yours faithfully,

Alan Griffiths

The Secretary,

WOKINGHAM.
