

18th January, 1962.

SINGAPORE

15255, 59, 69, 94. As recommended.

15266. "GLORY." As recommended. In view of the satisfactory nature of the General Examination now held, the Committee have given approval for postponement of the Special Survey until October 1962, and I shall be glad if you will advise the Owners accordingly.

15274. "BARFEDON." As recommended except that the condition of class referred to in the report was dealt with at Fremantle early in December and was deleted from the SHL. Please therefore issue an amended Interim Certificate .

15270. "BOUCH SILVERWAVE." As recommended. I acknowledge receipt of your letter and enclosure dated 29th December, the contents of which have been noted, but I would inform you that the forced circulating pumps do not yet appear to have been examined, and these items are therefore outstanding for completion of the Auxiliary Boiler Survey. Please issue an amended Interim Certificate accordingly.

15279. "EASTERN SAGA." As recommended except that the class has been continued without special condition. In this connection I have to advise you that although the Owners might consider it desirable to fit relief valves following your recommendation, it is not considered that the class can be made subject to this being done. Please issue an amended Interim Certificate accordingly.
