

m.s. "T.R.V.5"

Mr. Willis has phoned from Glasgow that this ship is now at Scotts' Yard, Bowling, and that she has been sold to Norwegian Owners.

Mr. Scott states that she has on board a Load Line Certificate expiring in 1948, but that there is a statement thereon to the effect that the certificate is valid only while the ship is engaged on Government service. He therefore enquires what has to be done to make this certificate valid for the voyage to Norway and whether, if desired, the Society would also issue an interim certificate for the proposed voyage.
